

## Project Design Phase-I Solution Architecture

Date	22 Oct 2024
Team ID	NM2023TMID00765
Project Name	Unleashing The Potential Of Our Youth:A Student Performance Analysis

### Solution Architecture:

Solution architecture is a complex process – with many sub-processes – that bridges the gap between business problems and technology solutions. Its goals are to:

- Find the best tech solution to solve existing business problems.
- Describe the structure, characteristics, behavior, and other aspects of the software to project stakeholders.
- Define features, development phases, and solution requirements.
- Provide specifications according to which the solution is defined, managed, and delivered.

### Example - Solution Architecture Diagram:
